

Shivani Bedi - Conference Director

We welcome you to the 5th edition nay 2nd remote edition of MSMUN. This year we are honoured to host 11 prestigious schools along with 5 committees.

At MSMUN we aim to develop universally acceptable proposals to solve some of the pressing global crises including the immigration crisis, health, rights, conflict, and imbalanced trade, among others. This year we focus on upholding humanity, by putting an end to the rape culture; empathy, by examining the situation of Palestinians and global politics; bringing equality into this world as each one has a right to love who they want with respect; critically thinking about every move that might create an impact, analysing correlations and lastly, by representing the media and showcasing the world with our filter. This year our conference underpins our intention to upscale fresh ideas for tomorrow's leaders. By the end of this engagement, I hope every individual will question things we observe in our daily lives and question them until they understand its meaning, as meaning is strength. I wish each one of you develops more confidence, opinions, and humanity in themselves by the end of this two-day conference. Good luck.

Kind Regards

Shivani Bedi
